

The International WELL Building Institute is leading a global movement to transform the health and wellbeing of communities through a people first approach to buildings. The WELL Building Standard provides a roadmap for creating and certifying spaces that advance human health and wellbeing. Our products can help your project achieve a WELL certification.

WELL

Concept	Feature	Requirement	Contribution of Autex Acoustics	
Light	L02 Visual lighting design	Part 1: Provide Visual Acuity	Available in a wide range of colours and reflectance values, providing more flexibility when designing a space to achieve the required Unified Glare Rating (UGR) and illuminance.	
	L04 Electric Light Glare Control	Part 1: Manage Glare from Electric Lighting		
	L07 Visual Balance	Part 1: Balance Visual Lighting		
Sound	S01 Sound Mapping	Part 2: Provide Acoustic Design Plan	Highly sound absorptive products, reducing reverberation time, supporting concentration, and increasing speech intelligibility. Can meet the minimum NRC requirements of this standard.	
	S04 Reverberation Time	Part 1: Achieve Reverberation Time Thresholds		
	S05 Sound Reducing Surfaces	Part 1: Implement Sound Reducing Surfaces		
Materials	X01 Material Restrictions	Part 1: Restrict Asbestos	No asbestos which is widely known to be hazardous to health.	
	X05 Enhanced Material Restrictions	Part 2: Select Compliant Architectural and Interior Products	No halogenated flame retardants and orthophthalates which are associated with health concerns.	
	X06 VOC Restrictions	Part 2: Restrict VOC Emissions from Furniture, Architectural and Interior Products	Low VOC and formaldehyde emissions and will not contribute to poor indoor air quality.	
	X07 Materials Transparency	Part 1: Select Products with Disclosed Ingredients	Part 2: Select Products with Enhanced Ingredient Disclosure	All ingredients are disclosed down to 100 ppm and published on Declare labels and Health Product Declarations (HPD) to help make fully informed choices when deciding which products to use.
		Part 3: Select Products with Third-Party Verified Ingredients		
X08 Materials Optimization	Part 1: Select Materials with Enhanced Chemical Restrictions		Declare certified to be Living Building Challenge (LBC) Red List Free, meaning they do not contain harmful chemicals and are safe to use.	

Concept	Feature	Requirement	Contribution of Autex Acoustics
Mind	M02 Nature and Place	Part 1: Provide Connection to Nature Part 2: Provide Connection to Place	Available in nature-inspired colours, with the option for customisations to create designs inspired by nature or designs that celebrate culture and identity.
	M07 Restorative Spaces	Part 1: Provide Restorative Space	Available in calming colours, textures, and forms that promote mental restoration and provide relief from mental fatigue or stress.
